## SUMMARY

Results-driven WordPress Developer & Software Engineer with 5+ years of experience building scalable, secure, and high-performance web solutions. Proficient in WordPress, WooCommerce, PHP, React, JavaScript, jQuery, and MySQL, with a proven track record of delivering custom themes, plugins, and complex eCommerce functionality. Skilled in front-end and back-end development, API integrations, speed optimization, and troubleshooting. Adept at collaborating with cross-functional teams, mentoring junior developers, and managing client communications. Passionate about crafting seamless user experiences and implementing best coding practices.

## TECHNICAL SKILLS

- **WordPress Development:** Custom themes, plugins, hooks, filters, REST API, ACF blocks
- **WooCommerce:** Custom product pages, Custom/Modified woocommerce flow, checkout flows, payment gateways, membership & subscription systems
- **Front-End:** HTML5, CSS3, JavaScript (ES6+), jQuery, Bootstrap, responsive UI, cross-browser compatibility
- **Back-End:** PHP (OOP), MySQL, AJAX, API integrations
- **Performance Optimization:** Page speed, caching, SEO best practices, security hardening
- **Tools & Workflow:** Git/GitHub, Bitbucket, Jira, Asana, Monday, CI/CD basics, debugging tools (Chrome DevTools, Firebug)
- **Additional:** React.js (components, state management), HubSpot CMS (basic), API consumption, JSON/XML

## PROFESSIONAL EXPERIENCE

### Sr. Software Engineer

Shaligram Infotech LLP | Oct 2023 – Present

- Leading WordPress and WooCommerce development projects, including custom plugins and themes.
- Executed React.js integrations for dynamic UIs within WordPress ecosystems.
- Designed and deployed optimized eCommerce stores, reducing page load time by 30%.
- Managed client requirements, performed QA testing, and ensured smooth deployment cycles.
- Collaborated with designers to deliver pixel-perfect, responsive web experiences.

## Software Engineer

**KudosIntech Software Pvt. Ltd. | Oct 2019 – Sep 2023**

- Developed custom WordPress websites and WooCommerce-based eCommerce solutions from scratch.
- Built and maintained payment gateway integrations and advanced custom fields.
- Optimized existing websites for speed, SEO, and security, improving performance scores by up to 40%.
- Mentored junior developers, conducted code reviews, and handled end-to-end client communications.
- Created complex jQuery modules and custom scripts for enhanced front-end interactivity.
- Worked on API integrations (REST/third-party) for extending WordPress functionalities.

## PROJECTS

### 1) app.canpli.com (Laravel, MySQL, Ajax, jQuery, APIs)

- Designed system architecture and implemented core platform functionality for a large-scale web app.
- Led project management and team coordination, ensuring smooth delivery from analysis to deployment.
- Integrated third-party APIs and optimized database queries for high-performance data handling.
- Created training & documentation for the client team.

### 2) Africa Web Solutions (WordPress, WooCommerce, MySQL, Ajax)

- Built a custom bus booking platform by extending WooCommerce into a real-time booking system.
- Implemented AJAX-based search, custom SQL queries, and session handling for seamless bookings.
- Customized WooCommerce modules, improving usability and scalability for regional transport services.

### 3) Manhood Journey (WordPress, WooCommerce, MySQL, Avada, Ajax)

- Customized WooCommerce “My Account” flows using hooks, filters, and template overrides.
- Enhanced engagement for an educational non-profit by redesigning purchase and subscription flows.
- Led system analysis, development, and deployment, ensuring long-term maintainability.

### 4) MGA Homecare (WordPress, WPBakery, Ajax, jQuery)

- Developed a pixel-perfect healthcare site under strict deadlines with full client satisfaction.
- Implemented responsive UI with attention to accessibility and precision design standards.
- Managed extensive media library optimization (350+ images reprocessed) for SEO and consistency.

### 5) Focus Waukesha (WordPress, WooCommerce, ACF, MySQL, Ajax)

- Engineered a fully customized WordPress site using ACF blocks and a tailored WooCommerce flow.
- Collaborated in a dedicated 3-member team, meeting aggressive deadlines with nightly build cycles.
- Strengthened time management and delivery under pressure, ensuring successful project launch.

## EDUCATION

### **Bachelor of Computer Engineering**

SVBIT, Gandhinagar, India | 2016 – 2019

### **Diploma in Computer Engineering**

AMEC, Dhari, India | 2013 – 2016

## CERTIFICATIONS & EXTRAS

- WordPress & WooCommerce Advanced Development (Self-learning + projects)
- PHP & MySQL Performance Optimization Workshops
- Familiar with React.js ecosystem and modern build tools (Webpack, Babel, NPM)
- Exposure to HubSpot CMS, Shopify, and Magento (basic projects)

## KEY ACHIEVEMENTS

- Delivered 40+ custom WordPress/WooCommerce projects, including enterprise-level eCommerce platforms.
- Increased website speed scores from 60 to 90+ on Google PageSpeed for multiple clients.
- Successfully migrated large-scale WooCommerce databases with zero downtime.
- Consistently received recognition for client satisfaction and on-time delivery.
